## Day 1

Met by tour guide at reception of V &A hotel at 8 am for ½ Day tour of Cape Town city.

Cape Town offers a rich historical heritage of activities, excitement and has a cool urban feel.

Excellent art galleries, hip bars and world-rated restaurants. Artist and designers are drawn by the city's beauty and it has always been the most cosmopolitan city in Southern Africa. Our half day Cape Town city tour will take you through the streets of the city looking up at buildings crowded with history. You will be amazed of the architectural and charm the city has to offer. Our first visit of the day is to Table Mountain. The shape of Table Mountain is very characteristic with a flat top of more than 3 kilometres. One of the most representative symbols of the legislative capital of South Africa. After our visit up Table Mountain we will drive along the coast, passing the following areas. Camps Bay, Maiden Cove & Clifton beaches. One of their attractions is their proximity and easy access so a good choice if you want a place to rest and relax. We will continue around the mountain into Bantry Bay, Seapoint, Green Point finally arriving to the historical center of the Mother city. Time permitting we will walk downtown through some of the historical places of interest. Proudly standing on the outskirts of the business district our walk starts from the Castle of Good Hope followed by the Grand Parade and Cape Town City hall, where on 11 February 1990 Nelson Mandela made his first speech as a free man. We also walk through the Company's garden, Green Market square and the Bo-Kaap. This tour gives one the opportunity to sense the spirit of the city of Cape Town and is designed to give you sufficient time to enjoy and feel the beat of the Mother city.

Tour ends at 12:45 pm.

Either have relaxing afternoon doing what you want by returning to hotel...easy dinner.

or

We can arrange another outing for the afternoon.

Note: If weather does not play along in the morning, then a Table Mountain trip may not be possible.

An option then would be to consider the City Tour for the afternoon.

Lunch and dinners for own account.

## Day 2

The Cape of Good Hope Full day tour is one of the great private excursions in Cape Town, with stunning vista's and many photo opportunities along the way. The day tour route starts from Camps Bay and head's south toward the Cape of Good Hope nature reserve. Nearly the entire Cape Point Route falls within the Table Mountain National Park. Our first stop will be in Hout Bay for an optional boat excursion to see the seals colony at Duiker island, where one can see thousands of Cape Fur Seals close up and in their natural habitat. Our next highlight on the way down the peninsula will be Chapman's Peak Drive, while only 9 km long, there are over 100 tight, winding curves carved into the vertical rock face of the mountain. After traveling approximately forty-five minutes from Chapman's Peak, we reach the entrance of the Good Hope nature reserve. In the 1400s and 1500s, mariners believed the Cape of Good Hope to be the southernmost point in Africa but since then it was found to actually be Cape Agulhas. After twenty minutes traveling from the main entrance of the national park we reach Cape Point. We always make sure to allocate our guest's enough time to hike up to the old lighthouse. For those less inclined to hike, the Flying Dutchman Funicular will take you 300 feet up the mountain. From the top it is a short 10 minute walk up to the old lighthouse. After our visit to Cape Point, a fifteen minute drive takes us down to the Cape of Good Hope, the most southwestern tip in Africa. Our route back to Cape Town will take us along the eastern coastal drive of the peninsula False Bay to visit the endangered African Penguins colony at Boulders. In 1982 four penguins found their way to this beach and never left. From Boulders Beach, the route hugs the coast passing the towns of Simon's Town, Fish Hoek, Kalk Bay and Muizenberg, this beautiful stretch of beach caters to surfers and water enthusiasts. Our last stop of the day will be the visit of Kirstenbosch Botanical garden. This UNESCO World Heritage Site is situated on the eastern slopes of Table Mountain, a part of the Cape Floral Kingdom Kirstenbosch home to approximately 7,000 plants species from all over South Africa.
